IamFluidics

Microfluidic solutions at jet speed

Chip-based MF

- Monodisperse
- In-line control
- Scalable
- Chip production
- Clogging
- Low throughput ($\mu\text{l}/\text{min}$)

Patented 'In-air MF' technology

- Monodisperse
- In-line control
- Scalable
- Chip-free
- No clogging
- High throughput (ml/min)

The team

Menno Noorlander
General Manager

10 years experience as head sales & marketing at ANT Neuro

Ir. Tom Kamperman
CTO, co-inventor

5 years research experience at UTwente and Max-Planck Institute

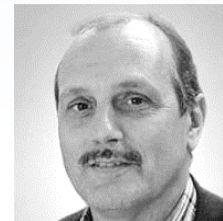

Dr. Ir. Claas Willem Visser
CSO, co-inventor

4 years experience as project leader at TATA steel

Ir. Vasileios Trikalitis
Commercial Business Manager

2 years sales experience at Vodafone, 1 year research experience at UTwente

Prof. Dr. Cees van Rijn
Senior Advisor

Serial entrepreneur and IP expert

Advise & Coaching
